WEBER ACADEMY LECTURE COURSE

Twelve Strong High Class Attractions Booked for the 1908-9 Season.

DISTRICT COURT BUSINESS.

Board of Education—Building Activity—Mystic Shriners Meet—Tabernacle Services—New School.

Ogden, Oct. 12.—The committee of the Weber Academy lecture course has completed its labors in booking 12 first class attractions for the ensuing school year. The committee which is composed of Prof. S. D. Bradford, Mrs. Janette McKay-Morrill and Christina J. Jensen, has secured some of the strongest orators that are on the lecture platform.

The committee announces the following lecture calendar:

- Oct. 21—Frederick E. Hopkins.
- Dec. 2—Ole Read.
- Jan. 7—Jacob A. Rils.
- Jan. 21—Whitney Brothers' Male Quartet.
- Jan. 28—Sylvester A. Long.
- Feb. 1—Russell H. Conwell.
- Mar. 17—Montaville Flowers.
- Mar.—Prof. S. H. Clark for four lectures.
- Prof. Maynard Lee Dagar.

The exact date of the appearance of the two last named has not been definitely decided upon but will be announced later in the season.

All of the above need very little introduction to the people of this community who have followed the lecture platform very closely. All except Jacob Rils and Russell H. Conwell have appeared under the academy lecture course before.

Rils and Conwell are two of the most prominent lecturers on the American platform today. The former is known as the great slum worker of New York and as a personal friend of President Theodore Roosevelt, with whom he worked for many years when the latter was police-commissioner of New York city and governor of New York.

President Conwell is a preacher, author and orator of great brilliancy and one who has given a great part of his life to the lecture platform which has given him a national reputation.

The little fellow is doing nicely and hopes are entertained that there will be no serious results, but a speedy recovery.

CHILD GETS LYE CAN.
A sad accident occurred at the home

of Mr. and Mrs. David Johnson, the city recorder, when their little 15-month-old son got the can of lye which the mother was using in scrubbing floor and attempted to drink it. BUILDING ROOM.
During the past two weeks building permits to the amount of \$14,300 have been issued from the office of the city engineer and throughout the city the building activity goes merrily on. All classes of laborers are finding plenty of work to do at the present time, as the builders of houses are anxious to get them completed before the winter sets in.
From several authentic sources it is learned that several property owners are contemplating the erection of houses and flats within the next month or two. This action has been found necessary on account of the shortage of houses in the city. Several times during the past month there has been a house famine in the city. In many instances tenants have paid for houses under construction a month before they were completed.

BUNCOED BY ADVANCE AGENT.
"On the Bridge at Midnight," a melodrama, closed its season in Ogden Saturday night after a short season. When the company arrived in the city Saturday morning they found that their

erstwhile advance agent, J. M. Age, had contracted a number of debts which he left for the manager of the company to meet. It is said that everybody that Age came in contact with he made a small "touch," ranging from \$5 to \$25, and said the "U. S." would be paid by the manager of the company. Telegrams have been sent to Chicago, to which place it is believed that Age had headed for, and his arrest will probably follow.

At the session of the county board of education held Saturday afternoon the clerk was instructed to advertise for bids for the erection of a new school house in the North Ogden district. The crowded conditions of the schools in that thriving settlement has made this action necessary.

When the train pulled into the station the husband and father of the child also came, and with the help of the law officers secured the child.

That the action of divorce brought by his wife, so weighed upon the mind of P. C. Jensen that he passed him in a fit of despondency to purchase some carbolic acid yesterday, with the intent of committing suicide and was only prevented from accomplishing the deed by the timely interference of Deputy Sheriff George T. Judd, who notified all of the drug stores not to sell C. A. Pinery any more poison.

MANTI
JURY ACQUITTED BURNS

Defendant the Concluding Witness—Claims He Shot in Self-Defense—And Jury Believed Him.
Manti, Sappete Co., Oct. 11.—The Burns murder trial is ended and the defendant was acquitted last midnight by the jury on its seventh ballot, and he was discharged.

The state concluded its testimony on Thursday night, and the defense had its closing argument last night. The deceased had threatened to kill defendant, who always went armed prepared for any emergency.

The witness was called in his own defense, and testified that deceased pulled his gun first at the time of the tragedy, but defendant got in his shot first. He bought and carried a gun, he testified, because he feared for his life, as from what he had heard of the deceased shooting at and assaulting other men with chairs, billiard cues and six-shooters, defendant said he believed him to be a dangerous enemy.

At the close of his testimony the arguments of the attorneys were made and the case submitted to the jury, who were out six hours before reaching the verdict as stated.
